# Carlos López Roa

Technologist

#### contact

Mobile 442-359-7980 carlos.lopez.roa@gmail.com Github: mr3m

## languages

Spanish / Native English / TOEFL German / A1

## programming

C, R Java, Python Shell-Bash SQL, XML CSS3 & HTML5 JavaScript Matlab Mathematica L<sup>Δ</sup>T<sub>F</sub>X, BibT<sub>F</sub>X

# mathematical expertise

Complex & real analysis
Linear algebra
Analytical geometry
Multivariable calculus
Superior algebra
Ordinary & Partial
Differential Equations
Statistics & Probability
Functional analysis
Finite element analysis
Wavelet Analysis
Dynamical Systems
Neural networks design

# interests

Data mining, Mathematical modeling, Big Data analytics, Computer simulation, Cloud computing, Internet of things, Sensorgrid, Artificial Intelligence, Machine Learning, Web Crawling, Embedded systems

## education

09/15-08/17 M.Sc. Data Mining and Knowledge Management Universite Lumiere Lyon 2, Lyon, Fra

10/09-04/14 **B.Sc.** Technology Center of applied Physics and advanced Technology, UNAM, Qro, Mex

Bubble dynamics subject to novel shockwave: High speed video summa cum laude, top 3 best GPA 2011, 2012, P.L. 08807255

# **experience**

02/15-08/15 Dattlas - Kio Networks Data Scientist Jr

Keywords: Big Data, SAP HANA, Business Intelligence

Projects: Televisa - Big Data

06/14-01/15 **Prosciana** Director of Technologic development

**Keywords:** Big Data, Cloud Computing, Internet of Things, Web Services

Projects: K13 | Alarmex | TopCar | Ultralam | Moringa | Lehvi | deconb | Britcan

01/14-06/14 Vintalent Solutions Data miner

Keywords: Web Services, Data Mining

01/13-07/13 National Autonomous University of Mexico, Campus Juriquilla Teacher assistant

**Keywords:** Classical Mechanics, Electronics

08/12-07/13 **G&C Consultoría** Statistical programmer

Keywords: Web Services, Statistical Analysis

Projects: UAQ Chemistry | UAQ Nutrition | UAQ Engineering | UAQ Psychology

# technical skills

Extensive ability in mathematical modelling, numerical simulations and computer assisted symbolic calculus.

Analogical electronics abilities. Microcontroller programming and implementation.

Big Data Analytics using Apache Hadoop and SAP HANA

Embedded Systems: Software and hardware development with Microchip PIC family, Arduino platform, Raspberry Pi and Texas Instrument Launchpad

Most common productivity tools on Windows, OS X, Linux desktop and Linux servers

Expertise running multiple instances and services in the Amazon Web Services cloud: EC2, RDS, S3, DynamoDB, EMR, SES

## extra courses

- Il Multidisciplinary mathematical Workshop on applications to other sciences, Mathematics Institute, UNAM, Juriquilla, Querétaro, 24 hours, 2014
- IX Mathematics Summer School, Mathematics Institute, UNAM, Cuernavaca, Morelos. 40 hours, June 2012
- XXVII Víctor Neumann-Lara Colloquium in Graph and Combinatorial Theory and its Applications, Tlaxcala, Tlax., 32 hours, March 2012
- Mathematics Summer School in Querétaro, Center for Innovation in Mathematics, Querétaro, Qro, 54 hours, June 2011

## social service

Research internship in the Shockwave Laboratory in CFATA-UNAM, 520 hrs.

2014 Gustavo Baz Prada award for the most impacting social service
